

MPAS/WRF workshop 2024 June

Title: Updates on WRF land components

Cenlin He (NSF NCAR/RAL)

Abstract:

In this presentation, I will briefly summarize the key bug fixes and physics updates that have been implemented into WRFv4.6 since version 4.5. Particularly, I will also review some key Noah-MP land model updates and WRF-urban updates as well as near-term plans for the coupling of WRF with the latest modernized Noah-MP model code.
